Here's a Tip for Huerta!

If Huerta wants a GOOD job he'd better buy a Consti-tution Want Ad.

Is your firm getting shaky or is it shaking you? If you have snap and ginger and real worth as a worker there's no reason why you should stay in undesirable environment.

But this is the retail mer-chant's day. He and Huerta both should read the big news on page 7C.

October Is Gone! Whole Winter to Get Ready For! Not a Moment to Be Lost!

Delightful Choosing Monday Among New \$35, \$40 and \$50 Suits

With dozens of new models at these three prices, each model is out of the ordinary in its general style and indisputably exclusive in its originalities of detail.

The Fur-Finished Suits

For as little as Sao there are beautiful fur-trimmed Suits:
suits of superb broadcloth, divetyne, velour de laine, matelasse and poplins: certain new greens that are lovely, taupe,
mahogany, prune, plum, Copenhagen, navy and black.
An almost endless variety of fashionable cupway effects—
medium lengths, derided in their lines; short, softe fallingperfectly loose and straight in the back; many finished with fancy
loops and buttons, others with loose half-drooping belt and
sash.

Small Women and Misses---An Opportunity for You

Twenty-five lovely sample Suits to sell Monday at \$20 to \$50. They are \$30 to \$75 Suits.

We took all the maker had to offer at these prices, only twenty-five. They are truly lovely: the very latest models—and of such materials as divetyne, broadcloths, poplins and matelasse. Sizes 16 to 18 only. The Charm of This

New Neckwear Very few women can withistand. Dainty accessories the neck, that transform a gown or sult and lend to it that touch of femininity so much desired. Coat Sets. Collars, Fichus. Plastrons, Medicis, Bows and Ties, All fashoned in pleasing ways, from net or lace. A host of pretty pieces to select from, at 50 ceach.

Women Are Enthusiastic Over These New Silk Petticoats at \$2.98

And they truly are wonderfully good at this price. Adorably fashioned in various ways of soft messaline. Some have close-fitting Jersey top; all the new, high colors to select from. Such Petitionate do not remain long in stock, when they are priced as low as \$2.98 each.

Warm Night Gowns for Open Air Sleepers

Gowns made of extra heavy outing flannel: with pockets for feet; detachable cap, they are cut very full-garments that fully protect one from the cold; priced at \$1.75 each.

Women's Pajamas—of good, heavy outing flannel, dainty pink and blue stripes: \$1.25 suit

Dainty Net Camesoles at 50c

Corset Covers, in other words, to be worn under sheer lace or net waists, over the brassiere: they are made of white net, prettily trimmed with lace and beading, drawn with ribbon; 50c each. Soc each.
Pink Mull Corset Covers, trimmed with lace; soc each.

75c for \$1.50 Muslin Drawers

Beautiful garments, made straight or circular style, and prettily trimmed with the daintiest of laces, medallions and embroideries—because they are solled from counter display we have priced them for Monday at 79c instead of \$1.50 pair.

A Special Demonstration of Riker's Toilet Articles

Our Toilet Goods Section is always a place of great in-terest, replete with the many accessories that give so much leasure to women. It is particularly so now with an expert demonstrator to show you the Riker preparations and explain the special function of each.

ATLANTA INSTITUTE OF MUSIC AND ORATORY SPECIAL ANNOUNCEMENT Opera Class, One Evening a Week. Direction of Wilford WATTERS

MUSIC, ORATORY, ART, LITERATURE

TRADEMARK is a manufacturer's personal indorsement of his product. It stands to reason that a man who stakes his personal reputation on the product of his factory is going to be careful what he sends out.

Trademarked goods come generally from clean factories, mills or kitchens.

The people at large understand this. Homemakers have confidence in standard brands. At dinner yesterday hominy was served.

"This is exceptionally white and tasteful hominy," remarked a guest.

"That's canned hominy, too," said the hostess. "I can buy old-fashioned lye hominy from the country people coming to the door; but I do not know them. They may or may not be clean. I would prefer food from the scientifically cleaned kitchens of modern food factories."

Retail grocers carry standard brands of food products. The better the grocery, the more of these it sells.

The Constitution would like information from your home as to your family's opinion on this subject. Will you write us what you think about it? Just address your letter to the Pure Food Editor, The Constitution, Atlanta, Ga.

The overcoat is a necessity. However fine it may be, it remains the thing of absolute need. It was invented to meet existing winter conditions, and many emergency calls throughout the year.

It is built to cope with the discomforts that menace your happiness and health. The it be rich and fine, and made to shine socially, its scientific construction is of chiefest concern.

The concern that "sits up" with the skill that puts in warmth and comfort, and the intelligence that compounds good wool and good work, the while keeping close to the art that gives it grace, the knowledge that gives it style.

No one article of wear gives so much real pleasure and real comfort for so long a time, and for the proportionale price paid for it, as a PERFECTLY SPLENDID OVERCOAT this MUSE, sert of overcoat we're just now telling you about.

Of course this is the kind of Opercoal you will buy:

And when it has proved sound and substantial under the strain and stain of years of service, you will then and not till then arrive at the real commercial worth of the overcoat you bought at MUSE'S in 1913.

> Buy such a cost now. Every day that you wear it you're drawing compound interest on the investment.

> > Geo. Muse Clothing Co.

Buy Ostermoor Guaranteed Felt Mattresses Here Tomorrow. \$18 Ostermoors for **\$13.65**

Twenty-five years, St. Francis Hospital, Trenton, N. J. Here Sisters of the Trancis say: Ostermoor Mattresses have been used (both do and light) for beweity-five years in the hospital, with entre satisfaction And they highly recommend them as the most comfortable and durable mattresses possible to be obtained.

WE will offer tomorrow 100 of these famous 45-lb., 4-ft. 6 inches wide, \$18 Ostermoors at an unheard-of low price, so every household in Atlanta desiring the best in the world can have one. They are never sold in stores generally—Ostermoor & Co. have been making them for 60 years. Judge Thomas M Sloane. of Sandusky, Ohio, says: "I have a number of them in my home. Some have been in use over 22 years and more." Isn't that

"Ostermoor Mattresses are such stuff as dreams are made on." One Chicago house alone sold over 1,000 of them the first day of a big sale recently.

What Will Atlanta Do?

What Will Auanta Do ?

225,000 People living in Atlanta and its Environments—How many know about the "Witchery of Sleep?" How many know why Nature requires the laving down at nights? Do you know half the people in the world would never know what Illness was if they but knew how to sleep?

In bed we laugh, in bed we cry;
And bern in bed, in bed we c

Here is the great opportunity to put yourself right with life and living—\$18 Ostermoor Mattresses for \$13.65, and guaranteed good to last a lifetime, unless burned up—This paper wouldn't begin to hold all we could tell you of Ostermoor Mattresses. They are guaranteed never to become lumpy, or require renovating, dust-proof, germ-proof, vermin-proof and also water-proof.

This is the great chance for Hotelkeepers and Clubs—Ostermoor Mattresses, famous the world over. \$18.00 Ones, Tomorrow \$13.65.

Growth of Business

Has forced us to move to new and larger quarters, but we are not going to get far from base.

With November 1 we go simply from the 10th to the 11th floor of the Empire Building, where we will occupy fourteen offices, instead of five-just three times the space. But, as Kipling would put it-

"That's another story."

We have handled successfully fourteen residence subdivisions in and adjacent to Atlanta.

We have sold to satisfied purchasers approximately 1,000 home sites in the space of little more than one year.

We have made money for every customer whose purchase we have rehandled.

We have a live and active selling organization of 50, and we must have room for them as well as for our customers.

We must have more room both for our city and subdivision sales departments.

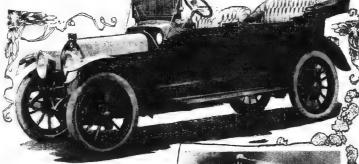

We are going to add a new department at once—that of home building on our subdivisions, and, later, insurance and loans, for—

We propose to have and to lend a hand our-selves in the improvement and development of the subdivisions we have successfully placed on the market.

Come and see us.

Empire Bidg. Allania, Ga.

PREMIER 111 Sallining

An Invitation

THE MAJORITY OF MANUFACTURERS ARE THIS YEAR TURNING THEIR EFFORTS TOWARD SIX-CYLIN-DER CARS.

THE HIGH-PRICED MANUFACTURERS ARE THIS YEAR DROPPING FOUR-CYLINDER CARS ALTOGETHER AND ARE SUILDING SIX-CYLINDER CARS EXCLUSIVELY.

THE LOW-PRICED MAKERS ARE EITHER MAKING A SIX NOW. OR WILL SOON HAVE THEIR SIXES READY FOR MARKET

THIS IS PROOF CONCLUSIVE THAT THE SIX-CYLIN-DER CAR IS THE ACKNOWLEDGED STANDARD OF MOTOR CAR PERFECTION THE PREMIER HAVE SUCCESSFULLY BUILT SIX-CYLINDER CARS SINCE 1906.

THE 1913 PREMIER SIX IS NO EXPERIMENT The PREMIER have built a car of quality since 1902. They have never built an automobile of low grade.

The Premier organization know nothing but quality in workmanship and material. The majority of manufactures who are building sixes today have but it nothing but medium-priced automobiles, and in the majority of cases this is their first or experimental year in building sixe-yolinder care.

Premier are experimental. Year in bullioning stacy-linear care. Premier are offering a high-grade stucy-linear car of proven value for \$2,735. They are the first of the Five Leaders to offer a high-grade siz at this prise. Other manufacturers who have been building four-cy inder care at an average price of \$1,800 to \$1,800 are now offering for \$2,500 to \$2,700 a six-cy inder car of unproven value. Why take the chance of buy-ing the unproven car when the Premier, backed with a record which proves it to be America's greatest touring car, can be purchased for \$2,750?

The Pramier cars will be on exhibition at the Automobile Show, and it is worth your time to investigate Premier con struction, as all the features are masterpleces and you can better judge your purchase.

A Most Extraordinary Sale of Suits At \$25

Allen's--This Week--Beginning Monday

The extraordinary part of this sale is the Suits—with the price attachment—\$25. You would not consider them high at \$35 and \$40. Some of them, you will say, are good values at \$45.

It is almost unlimited buying and distributing powers that make us particularly able to do this. About October 20 is the time first-class manufacturers of fine suits begin work on spring sai ples, consequently they "clean up" all winter materials in preparation.

We took the opportunity so favorably presented to buy from two of our regular makers—manufacturers of note who make only fine suits, retailing from \$40 to \$75—their entire stocks of fine materials. And these at a price that enables us to sell these suits at \$25.

The materials are broadcloth, whipcords, Bedford cords, serges, velour de laine, cheviots and jacquard worsteds. The models are exact duplicates of foreign models, featuring all the new effects in the graceful, loose-line styles, semi-fitted and helted models. Fancy short coat effects, and the aristocratic plain-tailored suits that depend entirely on fine quality and fine work for smartness.

Many of them have fur collars and cuffs—beaver, mole or skunk. The styles are shown in the drawing-few of them. We can show you about 25 more, all different, all of latest mode.

This notable collection of fine suits which you will see tomorrow carry all the noteworthy departures in suits this season, fancifulness of treatment, short coats, drop shoulders, fur trimmings, minaret skirts, fancy waist-coats, velvet buttons, and all the superb tones.

Colors are the new greens, ruby, manogany and browns in numerous shades; taupe, blues, ranging from the new Hague blue to the old and always favored navy blue.

The most economical thing a woman can do is to let this store economize for her.

Begin with these suits at

\$25 J. P. Allen & Co., 51 and 53 Whitehall

Deliberate Selection in Loose Diamonds

Our diamond rooms are especially arranged for the secluded and comfortable privacy of our customers, and to afford quiet and careful selection.

It is our desire to have our patrons know all that any expert can tell about a diamond, and we, therefore, display diamonds loose (unmounted), the only way in which eny diamond expert would consider a purchase.

Diamonds come from the "cutters" in "papers" containing many carait of stones of wide variety of color, degree of perfectness and class Every diamond we handle we buy directly from the cutters in papers aggregating many caraits of stones of wide variety of color, degree of perfectness and class Every diamond we handle read to a support of the cutters of the content of the cutters of the cutters of the content of the cutters o

AUCTION COURT HOUSE

TUESDAY, NOV. 4th, 10 A. M.

FIVE POINTS

Marietta, Tabernacle Place, Walton and Foundry Streets HEMPHILL PROPERTY-

FIVE HUNDRED BUSINESS PLACES AND ENTERPRISES BEYOND THIS PROPERTY.

The whole city of Atlanta back toward the center is a seething, grow ining city, whose comparison is unknown in the entire south, if in Un ted States

This Property Facing on a Network of Railroad Tracks

With every facility for shipping, packing and transferring, fronting on two car lines, over which run the interurban cars to Marietta subdivided with alleys and driveways to make it the most acceptable warehouse property in the city with retail fronts. Stop, look and listen! With the tremendous growing business of Atlanta, how long will it be till values here will go skyward with a bound?

To give you an idea of the growth of commercialism in the past ten years, we find that the bank clearings in 1902 were \$131,200,457.25. In 1912 the figures were so tremendous that it was beyond the conception of any human being -\$691,941,255,20 -- an increase in ten years of \$560,000,000,00 plus-an increase of 427 per cent, and Atlanta has just begun to grow

The postoffice receipts have increased from 1903 to 1913 from \$415,000.00 plus-to \$1,328,000.00, an increase of 219 per cent.

The State of Georgia will in the next twenty years have an increase in population of two million people. Our farm lands alone can accommodate this tremendous number of people.

Atlanta Will Increase 200,000 in Ten Years

Atlanta is the product of the State of Georgia, and will, by natural growth, get 20 per cent of this increase, which is the proper ratio for the Central City of a community like that, because of the necessity for banking, clearing, shipping and wholesaling, and for the furnishing of every need of mankind,

The Property

The property on the raiload frontage has been dividproperties, separated by partitions and doors on the railroad side, with platform for nloading at the car doo with exits on the alley side for unloading into wagens, the entrance of the alley being ten feet and widens into a space of 25 feet across the entire property

The property on Marietta street has been divided into seven store properties. Some of them will admit war houses extending from the railroad through the entire property to Marietta street

This is one of the mos peical subdivisions of railroad property and retain property combined that there is in all of Atlanta.

PROPERTY OF 10 17

History

The writer said to Dr. J. W. Mayson:

"Doctor, how long have you been acquainted with the Hemphill property?'

Doctor replied:

"For forty years, and that property has, all during that time, been a business center, and at no time have I seen the property vacant."

To a buyer this is a personal knowledge that accentuates the worth of this property and assures the investor of a steadfast income.

Railroad Center

Atlanta has the necessary railroad facilities, being the railroad center, not only of the State, but of the entire Southeast, and will grow as the section grows. It will always be the center, not only of commercialism, but music, art, education, etc.

It will be the town that the rich country merchant and planter will retire in, and Atlanta will grow in wealth and will grow in demand for investments. Atlanta today is probably the richest Southern city in the entire Southeast

All these things will enhance every inch of Marietta Street Frontage. Add to this that property which will face on the railroad, and you have a double valuation. and a double opportunity to begin with.

Streets Leading to the Property

LUCKIE STREET. Well, why expatiate? It has grown in value from Tabernacle Place to Peachtree at the ratio from \$25.00 to \$100.00 per front foot to \$300.00 to \$5,000.00 per front foot

Luckie Street feeds directly to the Hemphill property. Walton Street, which finishes exactly in front of this property, is more than two-thirds built up now with skyscrapers

Spring Street improved means further enhancement in this section. From the Hemphill property back to Peachtree is destined to be Central Property from this

Plat and Information at

To talk of the growth of Atlanta is only to be reminded of the fact that the Land Lot that this property is in not much more than a lifetime ago sold for \$200.00.

This Land Lot today includes so many millions in Atlanta's choicest Central skyscraper development that it is impossible to compute it.

The live, keen, far-seeing investor of today will readilv assure you that this is one of the most advantageous buys having been put upon the market in years.

It would not now be for sale except that there must be a subdivision of the property for the heirs, and will be sold at the time and date above mentioned. Your bid will be accepted and you will have the same chance that any other investor will have, and this is the only way it can be sold as prescribed by law.

The Constitution is not responsible for advance payments to out-of-town local carriers, dealers or agents.

A CREDITOR EMPIRE

The sure formula that will make Geor-cia a creditor state, and one of the richest in the country, is laid down elsewhere on this page by Lee Manderille, who is a repre-sentative and successful business man of Carrollon, goes to Carroll for file proof and his illustration in the "titagetom of Car-roll," he says that 4,000 farmers own their farms. That is the files premise Most of these men subordinate cotton to the position it ought to occupy—that of the aur-plus cash crop. Their miss energies are plus cash crop. Their main energies are concentrated on food supplies. That is why Carroll is the richest agricultural county in the state. It is also why the 13c and more per pound going into Carroll for cotton will be less impaired by debt than per-haps in any other county in Georgia.

Mr. Mandeville attributes much of this

Mr. Mandeville attributes much of this happy condition to the propagatal alunched many years ago by The Constitution and since then duvaryingly prosecuted. He shows how Evan P. Howell and Henry W. Grady first pushed the movement to raise feed stuffs at home and regard cotton as a surplus. He describes a tour of Carrol, which disclosed that all the prosperous farmers are following that advice, which be says is as sound today as it was when first given.

re says is as sound coay as it was when first given.

What Carroll hus done, every other county could do. It is the 'kingdom of Carroll,' hecuse its people are so self-supporting they could, at a punch, live without the assistance of the world outside. Other countles in Georgia could become just such kingdoms. The state as a whole could be transformed thus ones. It could be transformed thus ones. could be transformed into one. It could pile up such a buge source of income, and so successfully lop off waste and drain, as to become the greatest creditor state in

Georgia, pass sends hundrees of thou sained of olders, yearly to other sections for the corn, osts pess, has and meat that could not should be preduced within her borders. That practice places a personnial mortage axidist the cotton crop. Cotton is encumbered before ever it goes into the ground. Lanos are robbed of farility or an endless pump of cornor planter.

Parmers are run to cools. Banks and manufacturing enterprises are kept from onlineing their till crossit. The way out is easy. As Mr Mande-ville asys, it is a matter for the hundress man of the state to cande since, in the last analysis, theirs is the loss run the possible pooff. He counds to a stem note of warn-ing which the maceural familiers of Geor-gia will do well to head.

practice.

But it is what the people of Atlania are
directing, unconsciously perhaps, against
their own pocketbooks

The currious story was told in a recent
lasse of The Constitution.

boy mode with a foreign habel."
Smn b No. 1.
Now, see the childish side of it. The
things manufactured bere are as good and
as reasonable as those manufactured elsewhere. But in a great many cases the foreign fetich hurst belir chances. What
then? The makers know human nature.
They ship their goods east, gat a foreign
label stuck on them and sell them again
in the Atlanta market. You may say that's
duplicity. If it is, the blindness of allanta people drives the manufacturers to it. lanta people drives the manufacturers to it.

Who is hurt by this industrial snob-

Why? Because it is axiomatic that the more money you keep in a community, the more prosperous that community becomes The dollar you apend on a bureau, a tie, a pair of shoes, a skirt, a stove or what-not travels of above, a select of some or whatout iravels an endoss route entrollag every element in the city. Shend enough of them, and it meats more factories, more wage-work, every endose the common of the c

Signs of its lifting are already in evi-ince Folk buy home-made goods much one readily and frequently than they

more readily and trequently than they used to.

But, here's another phase
Meanfacturins is one of the foundations of wealth, and concentrated wealth goes to make cities
Boon the Pansma caul will open
The cities that are nearest to the canal and that have the greatest diversity of manufactures, will pull the export plume.

Aclanta is ideally situated. She has the nucleon of a splendid industrial center.

When you buy Atlanta-made goods you are contributing your mits toward making this city the southern center for export trade through the isthmus.

It's a good idea, then, to begin to cease sambhing our own pockstbooks. Don't buy Atlanta-made goods unless they equal in quality and price those brought in from caulity and price those brought in from the first price fight in the factor of the resign fine it are working with their dollars or make Atlanta a treme, rally wealthy industrial center.

POISONED YEAST.

POISONED YEAST.

Under the edorata caption "Signs of the Times" The Constitution took recent ownstands to deplore the poison to the yeast of the drama and iterature of America. The wide-opread commendation with which our point of view was received its significant. A strong and trylical note of approval is found in the letter published on this page today from Arra O. Brewton.

With the main contentions of Nr. Brewton The Constitution is in agreement. The over-emphasis of set is a dangerously totic indicence in the books and plays of today. Life as it is being emacted under the thrill fing and tense conditions of the twentieth century offers legitimate material more rich in dramatic and humorous contrast than at any cris in history. We are exploring the innermost retreats of science, and wresting the seretae of nature. We are bringing into subjection the uttermost ends of the earth. The most signantic engineering feat in human annals is making bugs islands of two continents. We have congered the sir. We have bridded and bitted electricity so that without wires it carries our measures over land and sea. More wonderful and compelling than all this, the mations of the whole world are in the meeting poil it is not in moral judgment to say what blood-less revolutions, what far-flung readjustments the democratic institute may not work with ancient peoples and customs gray with the lines of the ages.

What Carroll has done, every other county could do. It is the 'kingdom of Carroll', hecause its people are so self-county could do. It is the 'kingdom of Carroll', hecause its people are so self-county could do. It is the 'kingdom of Carroll', hecause its people are so self-county could do. It is the 'kingdom of Carroll', hecause its people are so self-county could be transformed into one. It could be transformed into one. It could be transformed into one. It could pile up such a hoge source of income, and so successfully lop off waste and dram, as the condition of the corp, out to lot the corp, out to lot long and the long and supposed to the long and supposed and suppo

ally and in community action, are batter, kindlies, more virtnons, mere restrained, more tolerant, more liberal with pures and is faguests, that ever before. That is the last motion of the common tolerant of the common tolerant and the state of the common tolerant and the state of the common terms are tolerant of the combe enterior for dramm. In an age that needs acrupalously to steer the young past the shoals of adelescence, we find it hard to understand the patronage of perverted tendencies the bare discussion of which would cause a blush to run around the family circle. Perhaps it is an inheritance from the malignant and minamatic refund the mackraker. That theory accounts for much.

Watever the cause, the effect is unquestionable. There is poisson in the yeast. We are quite confident that the whole economic body is strong stongs, eventually, to the control of the confidency of the whole economic body is strong stongs, eventually, to the legacy of the folly of transplanting the philosophy of the redlight to the stage and the library.

BENIGHTED LAND LAWS.

Robert Soxt Ferris chairman of the house committee on public lands, has very justly arraigned the body of our laws that relate to the public domain. In a speech recently made at Tulks, Okia. he declared that the present status of land laws con-stituted a blight on prosperity and devel-

that the present status of land have constituted a blight on prosperty and development.

There is little doubt about Mr. Perris'
statements. He has not exaggerated the
situaciou. As he shows, since he has been
in office, four men have had charge of the
department with jurisdiction over public
lands. The only rule for guidance now
open is the mass of conflicting rulings
and insufficient findings those four men
have successively handed donlitting rulings
and insufficient findings those four men
have successively handed don't his condition that people of the far west, as well
as of other sections where large bodies
of public land are affected, are bitterly resentful of the securing indifference of the
government. Missings indifference of the
government. That body conceived the idea
that if it acted to open public lands, or to

One of the Rarest Opportunities We Have Offered in a Long While——\$35 and \$40 Dresses at \$15.75

Monday Brings Another Wonderful Disposal of New and Beautiful Silk Dresses

\$15.75

A sale that sounds a new and higher note of mercantile service and one which further proves our unusual buying ability.

The series of extraordinary Dress Sales which "shopping Atlanta" has shared here during the past month have become famous; they are being "talked about," and discussed with very happy recollections by everyone who was fortunate enough to pick up "just the loveliest little silk gown for almost nothing."

Really they have been wonderful, and those who have attended them have grown to appreciate the fact of our constant alertness to provide for them just what they most want, and need, at marvelously low cost to them.

For Instance---These Dresses at \$15.75

The smartest styles for winter-and the exact values for which you are accustomed to pay \$35 and \$40.

The two illustrations are but hints of the scores of beautiful Dresses contained in the sale for Monday-varied selections, and clever adaptations of high priced imported gowns. Dresses that particularly appeal to women of discern-

Dresses for Street and Afternoon---Note the Materials

We cannot tell you adequately of their real beauty and charm, and can only hint of the great range of materials, colors and trimming features.

The Materials: Canton crepe, walrus crepe, crepes de chine, brocaded crepes, all of beautiful quality. Plenty of black, blue and white crepes do chine with plaited peplums. Then in lovely novelty dresses, including the brocaded crepes, there is every new and wanted color one could ask for—such as brass, taupe, wine, bronze, terra cotta, rose, brick, mahogany, wistaria, amethyst and all the blues, greens and browns,

They are beautifully trimmed with soft laces, nets, rich velvets and various other effective

We believe you will agree that they are the most remarkably good Dresses we have ever

Fascinating, 0h! So Fascinating Are the Fashions of the Hour

We may ridicule some of them and wonder if we shall look freakish—and then fall a victim; but we must admit with all their "queerness" there is a simplicity that is charming. Weaves have much to do in the fashioning effect—the suede-like surfaces of fabrics emphasizing the modeling

of the figure through the corset.

The diaphanous effect of the short hip skirt is ineffective it of the modeling through the corset is not perfect. Underdresser is the factor—say what we may, it plays an important of the cortex of the factor—say what we may, it plays an important of the cortex of the factor—say what we may, it plays an important of the cortex of

role.

A woman who is always remarked for her decided good dressing said in hearing of our core treatised recently—

"Yes, oh yes, I surrender. I thought I knew what I wanted in a corset—I do not. My figure is deplorable in the frocks of the season, and I will wear modish clothes—now do some thing for me. Yes, I know all about that hip curve, and that I insisted on a corset altogether too small. Now I want you to do the very best you can do for my figure."

"I cll. I am going to make it two inches larger," said the corseliere—"me must take out these bumps, and me will give you a little abdomen curve, which is the latest corset fashion. We will take away the hip curve, and I can only do it by forgetting your waist. I am going to fit you to a RED-FERN—not because your friend has it, but because it is right for pour. right for you.

right for you.

"The REDFERN sounds high class. It is—there is no better corset made. They may be as good but no better. We can give you a REDFERN as low as \$3.50 or as high as \$12.50. I am going to fit you to a \$6.00 REDFERN. If you want a finer one I can give it to you, but this model seems to be exactly right for your figure, as I study your size and consider the lines of the corset.

"You can wear the corset out, if you like. You are going to the Suit Department? No, you will not have to break this corset in—tt fits with the first fitting—the instant I adjust it to your figure."

We have a popular priced corset that is similar in contour to the REDFERN-

IT IS A WARNER'S RUST PROOF.

and the price is \$1.00 to \$3.50.

They are not made of such fine materials, nor are they so delicately trimme, but your corset is guaranteed to you if purchased from our stock—it may shape your figure into the lines of fashion, and furthermore, comfortably fit you, and wear as long as a corset ought to, and cannot rust, break or tear.

REDFERN CORSETS . . \$3.50 to \$12.50 WARNER'S RUST PROOF \$1.00 to \$ 3.50

A November Suit Sale At January Prices!

At Frohsin's---

---Tomorrow

OW, in the very height of the season—Tomorrow -you will be able to buy the prettiest, most fashionable TAHLORED SUTTS—at price-reductions which generally are not offered you till

ionable TAILORED SUTTS—at price-reductions which generally are not onered you am January.

The reason for this exceptional sale is that our business has been so brisk, that, at this early time, we have already many broken lots. These we have grouped—and they aggregate a large assortment for you to choose from.

While it is true that there are not all sizes in any individual lot, it is equally true that all sizes are here in the combined assortments of these handsome Tailored Suits for Misses and Ladies.

These garments are of the usual high-grade Froshin standard in all respects—and are of all the fashionable materials, in black, colors and mixtures.

The schedule of price-reductions follows:

\$23.75, \$24.75 and \$27.75, now . . . \$18.75

\$29.75, \$32.75 and \$34.75, now . . \$24.75

Till 9'O'Clock

52 North Pryor St

Across from Lowey Bank

WITH 72 inches of advertising run exclusively in The Constitution in six weeks, J. G. Sherrer, Grocer, 36 Gordon street, made big sales direct from single line items, brought many new cash customers, opened many new accounts and so increased the daily volume of his business that already he has employed more help, added one more delivery wagon and finds it necessary to plan enlargement of his store.

The space that sold these goods for Mr. Sherrer will sell furniture, clothing, jewelry, house equipment, personal service, all necessities and all luxines—all things that fam.lies wear, taste or use, work with or play with.

Mr. Sherrer's success he: in the fact that his message was

carried by The Constitution directly into Atlanta homes, owned or maintained by permanent residents, among whose family institutions this paper is counted one of the most essential. Notice that Mr. Sherrer's letter calls attention to the response from a note about Turkeys. You'll find that note in Advertisement

No. 4, at the bottom, buried as to position, merely incidental and apparently an afterthought. The response to it proves absolutely that every word in The Constitution ads must be read-read by people who make, carn, save and spend the money that supports Atlanta homes.

CONSTITUTION SPACE MAKES IMMEDIATE, DIRECT SALES OF ANY GOODS USED IN HOMES. BUY IT.

October 31st, 1913.

The Constitution, Atlanta, Ga.

Gentlemen: -Results from our advertising in The Constitution have been of many different kinds. They have been of such a profitable nature that I wish to express thanks and appreciation of The Constitution's effectiveness.

My first ad appeared Sept. 19. This ad was in-

My first ad appeared Sopt, 19. This ad was inserted also in another paper; but except for this one, my entire campaign has been exclusively in The Constitution. I will enumerate a few of the remarkable results directly traceable to this Constitution campaign.

Sept. 28th I advertised "New York Cream Cheese": so one item. This single line called attention to my cheese to such an extent that customers maked for it, using the language of the ad, so long after the ad appeared that on Oct. 17 I advertised it again, selling so much that now I advertise cheese in every ad.

.Oct. 3 my ad contained a line exploiting Irish Potatoes. I traced the sale of over fifty bushels to this ad. On the same day my ad called attention to Cornfield Hams and I sold over two hundred and fifty

Potatoes. I traced the sale of over fifty bushels to this ad. On the same day my ad called attention to Cornfield Hams and I sold over two hundred and fifty peunds.

Oct. 10 I advertised Grapes, selling every pound I hai; Potatoes breaking all my sales records. I mentioned Gold Medal Flour and sold fifty sacks, and Libby's Asparagus, practically clearing my stock. On this day I sent two wagon loads of goods to the North Side, my store being located in the far West End. Heretofore I had practically no North Side trade.

In this connection I call your attention to last Monday's ad. Advertising rotatoes I said 'They make butter tasts better.' Probably half the people who bought Potatoes for the next day or two asked for 'the kind that make butter taste better.' The same ad mentioned Homipy and Sausage. An order came from the far east side, a district which hitherto I had not penetrated.

Oct. 10 my ad contained a very small note calling attention to the fact that I was fattening Turkeys for Thanksgiving. It attracted so much attention from customers that I inserted another Turkey note Oct. 17. This brought to light such an interest in the Turkey farm that I decided to give away two Turkeys Thanksgiving and started the Turkey campaign, the opening ad of which appeared Oct. 20, and began inserting advertisements every Monday as well as Friday.

While advertising prices, my advertising has emphasized the high quality of products, cleanliness of store, courteous employees and prompt deliveries. To me the most pleasing results of this advertising are in the number of new cash customers and new accounts opened. Furthermore my sales on everything in the store have increased in direct proportion to the increases in specialized goods. Often people buy goods not included in the ads and make some comment that shows the advertising was the strongest influence that brought them in. Oct. 17, Saturday following the appearance of my ad on Oct. 16, my store did a business breaking all previous records. At noon I was required to pu

Tomorrow, For the First Time, We Show New & Stylish

Suits, Unmatchable Under \$25, at \$16.75

Judged by the four-fold test of style, material, fit and workmanship, these suits measure up to the fullest \$25 standard. We don't think nor guess that they are \$25 suits—WE KNOW IT. Shop the town over; get the best information you can about \$25 suits; then come here determined not to buy these suits at \$16.75 unless they grade up to your high expectations of what a \$25 suit should be. We think you will decide to buy—and save the \$8.25 difference.

We think you will decide to buy and the former former.

Every suit is of serge; just beautiful serge; beautifully ealored. Flain, practical styles; unburdened with trimmings to cover a defect here or a bad line there. No, these suits are simply tailford with the smart graceful lines that characterize high grade work. Costs are suits are simply tailford with the smart graceful lines that characterize high grade work. Costs are suits are simply tailford with the smart graceful lines that the state of the decident of the same state of the same state

A Clearaway of Fashionable Dresses

As the season advances, certain lines of dresses sell down to the two or three of a kind. Since we are particular about trim, well-kept stocks, we have little patience with these stragglers and small lots. To morrow, therefore, you can choose from one hundred and nine (109) new dresses at from \$7 to \$500 under yesterday's price.

If The dresses are divided into two lots, each lot containing strength of the containing strength o

sille e \$25 and \$29.50 Dresses \$18.75 \$35 and \$39.50 Dresses \$28.75

Harvard Mills Underwear Week

For One Week the Makers Drop Their Prices to Demonstrate Their Superior Underwear

THE makers of Harvard Mills underwear believe they produce the best moderate-price underwear in America. Thousands of satisfied customers have reason to believe the same thing. But there are other thousands of the Harvard Mills underwear.

To get those women to try their underwear the Harvard Mills fompany instruct us to sell, during the week of November 3d to November 3th only, their No. 806 underwear at these remarkably low prices:

Women's yests, {always 50c, drawers and tights, this week at Above in extra sizes, always 75c, at 50c.

Linin suits, always \$1, at 75c.

Extra size union suits, always \$1, 25, at \$1.

Extra size union suits, always \$1.25, at \$1. EAUTH SIZE UIRON SUITS, AIWAJS #1.20, AL #1.

Harvard Mills underwear at these introductory prices is such a rare bargain that we strongly urge our customers to buy freely whatever they need. Our out-of-town friends can brder by mail with the assurance that their orders will receive immediate attention.

Ford Model T Town Car-\$750

Grerland \$950

Which Do You Buy Discount or Value?

There are two methods of securing business: one by offering the customer a good article at an established price for a legitimate margin of profit; the other by offering an inferior article at a cut price, trusting to the customer's love of a discount to make the sale. In the first case, the buyer receives the assurance that he paid a standard price; that his neighbor did not buy the article for a lesser amount. In the second case the buyer is left with a bitter taste, realizing that his price depended upon his ability as a trader, not upon the value he received.

In every business there is at least one article that is recognized as a standard by which competing goods are judged. That article is always sold at a fixed price. When you pay that price you are protected against poor quality and cut price. When you buy a competing article listed at the same price you must realize that the article is inferior or the price could not be cut.

The Overland is one of the few automobiles on the market that maintains its price. You cannot buy an Overland in Atlanta at one dollar less than list price. Most of our competitors offer you a discount.

Can You Afford to Take It?

Overland Southern Auto Co., Distributors 232 Peachtree Street, Atlanta, Ga.

CAR OF SILENCE

ARRIVES IN ATLANTA

The Care of Micross to the state of the state o

A New Light Six With Fifty Horsepower and Two Other Equally Remarkable Velie Models

HE utmost in real, usable value that can be built into an automobile, brought down to your own price. Cars at double the cost duplicated in every essential, specification and detail of equipment.

Velie Model 5 The new "4-35"—the most powerful type of small car built, with complete equipment, including the most advanced type of electric starting and electric lighting—identical with that used on the bigger Veliemodels. \$1500 In what it offers to the owner—the most remarkable small car ever built. Price \$1500

Be your own judge of the values offered in Velie cars for 1914. Compare them in every detail with any other car at any other price. Match the Velie guarantee, backed by one of the oldest and strongest manufacturing concerns in the Middle West against the guarantee offered by cars sold at twice the price. These specifications are common to every Velie car built for 1914. Read them over—then visit our salesroom and let us demonstrate what they mean in the actual performance of the car itself. they mean in the actual performance of the car itself.

MOTOR.—"L." head type on all models. Long stroke. Remarkable flexibility secured from Stromberg carburetor. High power on low gasoline consumption.
IGNITION—Bosch dual system on all models. Magneto accessibly located. All wiring enclosed and protected by brass conductor.

duits.

LUBRICATION—Positive feed with oil forced directly to main bearings of motor. Cylinders and pistons lubricated by splash. Most efficient type of oiling system yet devised. Oil pump completely enclosed and protected in engine base.

COOLING SYSTEM—Extra large radiators. Centrifugal pump in "4-45" and "6-50" with thermo-syphon action when necessary. Thermo-syphon cooling on "4-35" with extra large radiators.

necessary. Intermo-syptom cooling on 4755
large pipe.

TRANSMISSION—Heat treated, nickel steel gears, four speeds forward, one reverse, on "4-45" and "6-50." Three speeds forward and one reverse on "4-55.

SPRING—Exceptionally long springs with extra wide leaves. Semi-elliptic front and % elliptic rear. Rear springs on "4-45" and "6-50. St inches long. Pullman-like riding ease on all roads secured by Velle spring suspension

CLUTCH—Velle special dry plate clutch with friction plates of Raybestos. Positive but smooth in action, no grabbing.

ELECTRIC STARTER—Gray & Davis electric starter on all

models. Starter on "4-45" and "6-50" drives direct on crank shaft by sprockets and silent chain. Drive on "4-55" is by gears on the fly wheel. Pressure on one pedal starts the engine. The highest grade of starter built today.

ELECTRIC LIGHTING—Electric lighted by Gray & Davis system. Current supplied from high-capacity Willard storage battery, the same battery that is used in the starting system. TIRES—Tires mounted on quick detachable, demountable rims, furnished on all models. Tires on the light "4-35" cars 34x4 inches. On the "4-45" 36x4 inches. On the "4-45" 36x4 inches. On the "6-50" 37x44/5 inches guaranteeing insurance against tire trouble.

CLEAN BODY LINES—High side bodies on all models with deep cowl dash and concealed door handles. Running boards entirely free from battery box or other incumbrances. Clear running boards with wide doors, make the car especially easy to get in and out of. Spare tires carried at the rear where they help to balance weight of the car.

DEEP UHPOLISTERY—2: einch cushions on "4-45" and "6-50" with specially deep back cushions. Finest hand-buffed leather used. Equivalent to quality of that used on the highest priced and the processing the start of the cars.

cars.

EQUIPMENT—Mohair top and envelope, ventilating windshield. Warner speedometer, extra demountable rim, concealed
electric horn, foot rails, robe rails and complete tool kit.

Get a car that has the firmness on the road of the heaviest cars built and yet is so light in weight that it reduces cost of operation to the lowest point. That is the kind of a car you get in the Velie. Bodies are low—the weight is put at the right place to get perfect, balance. It is the superior car because it is the best built.

All-Weather Treads A Goodyear Innovation

Both for Dry Roads

And Slippery
Here now is a tread which combines the advantage of the smooth and the anti-cloid.
A tread for all wheels and all seasons. Economical, enduring, flat and smooth-rumning. And yet an antiskid, when needed, with a buildog grip.
It is d. int-thick, and made of rubber to the process. Immension of the process.

ildog grip.

ole-thick, and made of rubber toughened process. Immensely wear-resisting, that the blocks are very deep. So tough cks last for thousands of miles. They never

a ligament. So it runs like a plain tread. No vibraons at here is with irregular projections.

The edges are sharp and they tary sharp. They are
lated at an angle of 45 degrees to face the skidding
irrection. No other device has over offered such
and the strains are distributed over the fabric just aswith amooth-tread tires. With separate projections the
strains are custered at amadl points in the fabric.
That is whin made anti-skids short level.

No man who makes a
the minute comparison will
compare and olivipe anti-skid.

Mo man who makes a
the minute comparison will
compare and olivipe anti-skid.

GOOD

without the protection.

GOOD YEAR No-Rim-Cut Tires

Don't Risk Wet Roads Without Them

This All-Weather tread is a winter easen-tial. Noother anti-skid is so efficient, none so conomical. This tread now outsells our plain tread with users. It ought to be universal. This tread has brought another advantage to Good-ser No-Rinc et times. Now share four exciusive to these time.

it-thick, and made of rubber toggleed to these line. The content of the content o

Ask Dun's, Bradstreet's Or Your Own Banker

NOW, MORE THAN EVER BEFORE, it behooves the dealer and the buyer to look carefully to the financial stability of the automobile manufacturer whose car he contemplates owning.

THERE HAVE BEEN SOME occurrences of late that should serve as a warning in this regard. On the other hand, there hasn't been a failure that wasn't scheduled. They were foreordained from the first—inevitable.

BOME WERE OVERDUE, in fact. Thanks to the splendid demand for cars, which we and other responsible concerns were unable to supply in full, some of them were accorded a longer lease of life than their product or experience or financial backing entitled them to.

THERE WAS NO EXCUSE, however, for any buyer being in ignorance of what im-pended. That was easily foreseen.

LET US SUGGEST that now, you who are in the market for a car look into this matter as it deserves. You owe it to yourself—and us.

ASK BRADSTREET'S OR DUN'S. Or if you are not a subscriber, ask your Benker to investigate and inform you. He will do it gladly.

ASK HIM WHICH ARE the five financially

YOU WILL FIND that the Maxwell Motor Company is one of the five—and it will not be fifth in point of stability either.

HAVE HIM ANALYZE the latest financial statements of these five strongers and tell you which have the greatest amount of assets in proportion to liabilities—including bonded indebtedness, etc., of course. We think he'll tell you the Maxwell Motor Company is one of the leaders.

PERHAPS YOU DIDN'T KNOW—there's been so much confusion in this matter— that the Maxwell Motor Company has no connection/whatsoever-with the late Maxwell-Briscoe Company except that this concern

purchased, through the U. S. Courts, all the assets, not only of that, but of several other concerns.

WE STARTED WITH A CLEAN SLATE —with plants worth many millions, with ample cash on hand to take care of our manufacturing operations, etc.

WE HAVE NO BONDED INDEBTED NESS—no outstanding notes or debts of any kind except current open accounts not yet due.

AND TODAY WE ARE nine months old with orders on our books for more than thirty thousand cars.

HAS THAT RECORD EVER been surpassed in this industry? We submit the account of our stewardship—ak Bradsteet's, Dan's or your Banker for further particulars regarding the operations and stability of this Company.

THEN YOU'LL FEEL SECURE on that point and, when you compare the cars as carefully, there will be only one answer, "Yours will be a Maxwell."

Tours will be a Maxwell."

THERE ARE THREE MAXWELL

MODELS—the "55" for \$750; the "55"
for \$1225, with electric starter and lights,

10 AUBURN AVENUE

25x100—CENTRAL BARGAIN

ON HOUSTON STREET across from the Dakota Hotel, in a few steps of Candler building and Peachtres street. Property across from this lot sold for \$3,000.00 per foot twice months ago. We can deliver it for \$1,000.00 per foot and tell you today that you will clean up \$5,000 per foot in it within two years. We can offer unusual terms. See us.

74x100-BRICK BUILDING

NOS in 21 AND 23 PETERS STREET, between react and Madason arenue, consists of one two-ton and basement building and one 3-fory and basement building. Within 200 feet of new Southern freight building. It looks like a bargam at \$77,500.00 on terms of \$5,000.00 cale, and balance to suit.

SEMI-CENTRAL CORNER

THREE BLOCKS from Candler building, in Carnegie, Spring street section, we offer a little corner 30x80 feet. An ideal location for store with apartments above Price Stanono on your own terms. No. 63 West Cain, corner Wilhams. Look at it.

8 ACRES ON CAR LINE

CONNER BOULEVARD DEKALB and car line, we often 8 acres fronting 630 feet on Boulevard DeKalb, glid at Uffilm station. Owner is asking \$5,000.00 for it in uses seems. If you have each money you can buy a argun. It looks like \$12,000.00 to \$15,000.00 within the model of the rethree years. It won't hurt you to look at it.

PEACHTREE LOT

OF THE POPE Hartford building on Peachtree, between Porter Place and Baker, we offer asxiso feet at \$13,350.00 per foot. This is without question the chapest lot in the block and we predict that it will re-sell for \$2500.00 profit within twelve months. Can make easy exist.

PEACHTREE AND TENTH

IN THF business settlement near Tenth street, we offer a4880 feet, adjoining brick building formerly occupied. A building of the bis office. Every store out there is occupied. A building on this lot will pay good interest. Price \$10,000,00

PEACHTREE STORE

A MODERN building on Peachtree street leased to good tenant, now paying seven per cent. Price \$47,000.00 Some terms.

SPRING STREET-25x100

NEAR HARRIS and adjoining property held at \$0.50.00 per foot, we offer \$25.00 feet. One block of Capital Chab and Peachtres street. When \$500 per foot, Price \$10.000.00. Would consider small price of preperty as part payment. We believe \$500 payment will put you in possession

25 FEET—PEACHTREE STREET

IN GEORGIAN TERRACE block we offer 25 feet front.
Price \$750 per foot. Can take smaller property up to \$5,000.00 as part payment.

RENTS \$102.00 PER MONTH

IN FOURTH WARD, we have some brand new invest-ment property renting for \$10200 per month. Owner is asking \$20,0000 but says get him an offer. If you have cash money you can buy a bargain.

WAREHOUSE PROPERTY

ON MADISON AVENUE, in 200 feet of railroad side track, 108x100 feet. Price \$200.00 per foot There is due on this \$7,500.00 payable \$1,000.00 yearly. Owner wants some income property and will take either small lots or renting property for his equity.

\$15,000—BETWEEN THE PEACHTREES

THIS SIDE OF NORTH AVENUE, we offer a brick building 40x80 feet, with alley at side, now renting for \$100.00 per month. Located where it will increase in value. Terms \$2,500.00 cash, balance can run five years.

SPRING STREET HOME

NEAR THIRD STREET, a modern nine-room house on large lot. We believe that an offer around \$7,500.00 will buy it. The biggest home bargain on the market.

TURMAN, BLACK & CALHOUN **INVESTMENTS**

WHITEHALL STREET—Right at the big developments, we offer for sale 46x196 with an alley on the side. This is a fine piece of property for enhancement in value and a little less than \$300 a foot will get it. House on it now rents for \$35, which will pay taxes and interest.

On the North SIDE, a brick store, a lot with three street fronts, rented on a three-vear lesses \$140 per

street fronts, rented on a three-year lease \$140 per nth. Price \$15,500, with a eash payment of \$5,000. If EAST FOURTEENTH ST.

you have that much cash, you can't place it to better advantage.

LUCKIE STREET—A few thousand dollars invested wisely on this street will probably double your investment in a few years. The retail stores are gradually moving west along this street and it takes retail trade to make a value. Anticipate the GROWTH in that direction and make a small investment. We offer several small pieces CHEAP, this side of the Tabernacle. Let us go

PEACHTREE ROAD building lots continue to go up.
We have TWO particularly fine corner residence
sites 100x400 each that can be bought unusually cheap. Inquire about these. They are this side of the 6-mile post.

> TURMAN, BLACK & CALHOUN SECOND FLOOR EMPIRE BUILDING

RECORD OF PERFORMANCES

Low maintenance cost of a Van Winkle Truck adds to profits.

Van Winkle Motor Truck Company

\$1550

\$1550

You wanted a really high-grade car at Jeffery has built it! a moderate price.

You know that four or five hundred dollars will buy an automobile, but you aren't willing to sacrifice entirely, looks and comfort. You know that twice as much money will buy an automobile with quite a little in looks, comfort, power and service under good road

You know that if you don't care how much money you spend, you can buy a good car, light enough to be economical in gasoline, oil, and tires; powerful and fast enough to do all you want done, and made of the very best materials to be had in this country and Europe; and handsome as the best designers on conceive preferring every. designers can conceive—perfect in every way—except price.

But to build such a car to sell at a moderate price—that's another thing. It can be done only by a big, successful concern with piensy of money, long years of experience in buying materials and machinery, organized to avoid all waste, so that every cent paid for production would really on into the car; the manufacturer must make practically every part, and make these parts better and for less than he could buy them from others. In short, such a manufacturer must be a complete master of every detail, including large capital. Any other would be sure to fail in such an undertaking.

THE THOMAS B. JEFFERY COMPANY has always been recognized as representing the most solid, conservative, yet successful spirit of the automobile industry. In bicycle days the Rambler was the standard by which others were measured. Later, as the automobile took the place of the bicycle, the Rambler and the Cross Country stood in the front rank of cars in their class and were recognized even by their keenest competitors as sturdy, well designed, dependable cars.

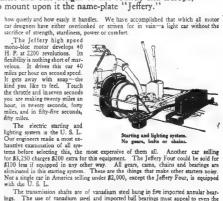

Now, this marvelous manufacturing organization, with its \$5,500,000 in assets, with the highest credit in the industry and a factory equipped with \$3,000,000 worth of the latest machinery, its engineering and designing departments thoroughly familiar with the latest and best designs of this country and Europe, offers to the public a perfect motor car, and is proud to mount upon it the name-plate "Jeffery."

designing departments thoroughly familiar with the offers to the public a perfect motor car, and is prout. There are other cars on the market at about \$1,500, but even hasty companson of the specifications with the Jeffery will indicate that from now on at least, motor cars cannot be "classed" by price. There are still other cars whose specifications, market all and workmanship conform closely to the Jeffery, but they sell from \$2,500 to \$5,000. Therein lies the ternatulable and extraordinary side of this announcement.

With all the capital in the world, and with an honest desire to build a perfect motor car surpassing all existing values, you could not go into the automobile business tomories and give stop and the proposed of the surpassing all existing values, you could not cars as soing at these have been built; to know every step, every improvement, every mistake. The men who work for you purchasing department must have been buying the best of materials so long and in such unative to those who have worked, saudied and experimented with you for years. Your purchasing department must have been buying the best of materials so long and in such capacities that its invariably offered the best of materials as long and in such responsible to the such profits in your costs. Your machinery must be into past own plant and build them better and more economically than outsiders could. There can be no accessory builden' profits in your costs. Your machinery must be in your plant because you have seen and more economically than outsiders could. There can be no accessory builden' profits in your costs. Your machinery must be in your plant because you have seen machinery develop and know the best, Your ideas of design and construction must be in advance, because your experience is the longest and sweet and because you have seen machinery develop and know the best, Your ideas of design and the burgeto of possible financial distress.

These are the precise conditions under which the Jeffery is one of the highest and credited

You will probably never appreciate the fact that the Jeffery is one of the high de cars on the market regardless of price, unless you consider the specification eye are given here very brieffy. You should know all the truth about this wonder, how little it costs to operate it, how easy it is on tires, how smoothly it operate.

Not a single car in America selling under \$2,000, except the Jeffery Four, is equipped with the U. S. L.

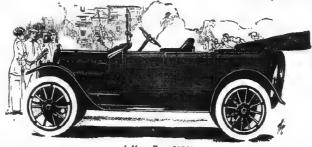

The transmission shafts are of vanadium steel hung in first imported annular bearings. The use of vanadium steel and imported ball bearings must appeal to veral the uninitized as practices usually associated only with very high priced cars. Our springs and front sale are also of vanadium steel. The rear ade is of the full floating type, also on imported annular bearings. The driving shaft is many times stronger than the heaviest strain you could ever place upon it, and is made of the finest chrome nickel steel, vanadium treated.

The wheel base of 116 inches gives a compact car and yet retains the comfortable lines of the body and short turning space—42 feet.

Rothschile desgned the body. If a an improvement on the Lancia—that beautiful tailan car. It's Brewster green. The upholicry is of the finest leather and hair. The doors are extremely wide—23% inches. The dash literally radiates an annophere of modern equipment combined with practical under-the-hand control. The headilight can be dummed at any time for city driving.

The equipment includes top of the finest material, rain-vision windshield, Steward Warner speedometer, ammeres, errat demonutable rim with carrie, electrically placed dash, Klaxet horn, Solar electric lamps with dimmer, and complete tool equipment. The cars is built in five body styles: Five passenger torangie, or two passenger road-stee, \$1,550; two passenger Coupelette, enclosed, inside dive, \$1,550; two passenger Coupelette, enclosed, inside dive, \$1,500; to an absolute of the carried with the sent if you ask for

A Jeffery circle will be sent if you ask for it.

Jeffery Four \$1550

The Jeffery Six is a duplicate of the wonderful Jeffery Four, except for size. The cylinders are cast in pairs. This car, which sells at \$2,250, is in a great many ways as remarkable among Sixes as its smaller brother is among the Fours. We built it for those who will drive nothing but a Jeffery car, but who prefer a Six. It is light—actual scale weight, 3700 pounds, with full equipment. We made it luxurious and beautiful without making it extravagant. We know that a better Six cannot be built.

The motor $-134 \times 534 - de^2$ reloops 48 horse power. The bearings are imported annular hall throughous. The ignition is Boach Duplex and the starting and lighting system is the U.S. Ls., of course. Wheel base, 128 inches, and wheel 16 x 45 - 00 molecule cars 37 x 1 - Rayfield carbarretor, Warnet amometic, annutate, regime drives power time pump, Rathchild body with extra wide doors and loss, these mass, build flowthag rear rate. This car is made, for passenger touring or two passenger tourings at \$2506; six passenger at \$2300; Sedan for passenger \$2520 and timeowings, at \$3700.

Successful dealers want to tie up with a financially strong and successful organization. Furthermore, such a high grade car, built in such a plant and of such materials has never before been offered anywhere near this price. Big dealers in big cities all over the country are dropping other lines and organizing new companies to take on the Jeffery line: They are quick to recognize in this car a wonderful opportunity.
